

1. Visit the router's IP address (<http://192.168.2.1>) in a new browser window.

<http://192.168.2.1> is the default Belkin router IP address.

2. Click on DNS under Internet WAN.

3. Enter the router's password and click Submit.

## Login

Before you can change any settings, you need to log in with a password. If you have not yet set a custom password, then leave this field blank and click "Submit."

**Password**

**Default = leave blank**

Clear

Submit

4. Uncheck Automatic from ISP and type in Sunny SmartDNS addresses in DNS Address and Secondary DNS Address.

## SUNNY-NET Static DNS Setup Instructions for Belkin
